Although Holly Jacks Equestrian offers investment opportunities and partnerships, being a member of the Candy King Group is different.

A horse competing at this level costs approximately \$60,000+ per year to maintain, and that excludes costs for international travel to overseas events. Group ownership helps defray these costs.

Being a member opens up the world of upper-level eventing to those interested in horse sport who otherwise would be unable to compete at the FEI level or afford the full cost of an international caliber horse.

Membership allows group owners a behind-the-scenes experience, access to training sessions, and attendance as an owner or VIP to prestigious events such as:

- The World Equestrian Games
- Pan American Games
- Olympic Games
- Kentucky 3 Day Event
- Maryland 5 Star
- Other potential European 5* events such as Badminton, Burghley or Pau.

You will receive phone calls and email updates on Candy King, apparel, plus gain a group of new friends and supporters who share an interest in supporting one of Canada's top horse and rider combinations!
